

On behalf of the AFAANJ, we would like to let you know about a change that occurred recently between the AFAA National Chapter, and your AFAANJ chapter.

Beginning October 1st, 2022 –, you are NOT required to sign up for National Membership and State Membership.

You now have the choice to join both - OR - you can choose to only join one or the other. The State or National association alone.

How does this change effect our members?

The biggest way this change effects our members is that it has the potential to save them some money!

Our members are no longer required to sign up for the National Chapter when they sign up for the AFAANJ chapter. There are many benefits to remain a member with the National Organization, like access to webinar & in-person trainings, great networking opportunities, etc. – but this is no longer a requirement.

Individuals/Organizations attempting to sign-up/renew for the AFAANJ, should do so through our website:

- <https://www.afaanj.org/>

While the National chapter membership renewal & sign-ups will be handled directly through their site:

- <https://www.afa.org/>

Your AFAANJ Chapter representatives, will now handle all State membership inquiries directly.

Please contact your AFAANJ Membership chair if you have any questions:
Pat.Ryan@Sdifire.com

Have a great day!
